HEALTH + SAFETY All bookings are responsible for the health & safety of the public & staff/crew within their pitch / working area. Nic & Marie can advise on H+S matters & will mail out a risk assessment form to those booked and they'll be an on-site H&S check/advise available.

PLEASE BEAR IN MIND WE REQUESTS THAT

Further Details about Workshops

All booked workshop groups both live and work in the same area, forming a communal village atmosphere. The work area is public and 'out front' and crafts groups make their living area which is 'behind' private.

SHELTER & SIGNAGE You need to provide your own covered working area, ideally wide & open fronted, which is attractive & inviting with an outside sign showing your groups' name / workshop activity / times. A good looking canvas tent or awning is ideal, and up to 20' wide is ideal. Workshop prices to be clearly displayed within your pitch.

LOCK-UP Each workshop group is permitted 1 on-site static DIESEL vehicle to use as your tool / equipment lock up. This is for health and safety reasons and the vehicle must not be seen by the public (use canvas cover / screens etc)

SPACE in the main arena is limited and as a guide, the width of your public workspace frontage is the same as the width of the space we can give you for your back-of-house camping/parking. For example, if you bring a 20' wide tent for your workshop, then you'll have @ 20' wide for your back-of-house (camping/parking). If you bring a small 12' wide pagoda, you'll have a very small back yard (as you have to fit in behind 12', and there may not be lots of depth!)

PITCH APPEARANCE We request your pitch looks good & happening throughout the festival, vibrant & interesting even when you're not 'at-home' yourself. The appearance of your pitch is very important; if you're able to bring sculptures, display materials, flags, flowers or anything else you can think of to help create a beautiful space – it'll be greatly appreciated and welcomed.

ACTIVITY We believe it's important to have a wide range of craft activities happening in the area, offering beginners and the more experienced opportunity to get involved. Each group decides on the level to pitch the activity at and whether to accept bookings or work on a 'drop-by' basis. Charges are based on material expenses / preparation and the public pay the craftsperson direct. A sliding scale of activity and cost beginning at a few euro can work well. We ask all workshop groups to work on a demonstration piece when they are not busy at workshops. This helps the area feel buzzy

>>>>> APPLICATION SUPPORTING LETTER

Please attach a cover letter telling us about yourself / past experience / further details plus **include photos of your covered space set-up** / craft work / sculpture / example of a workshop in action etc
